

Yasser Amin Al Braidy

Senior Full Stack Developer

Beirut, Lebanon • +961 76 780 817 • yasser.braidy@gmail.com • [Portfolio](#)

EXPERIENCE

Azadea Group - Beirut, Lebanon

July 2024 - Present

Specialist Full-Stack Developer

- Architected and deployed the Employee Benefits Program (EBP) for 14,000+ employees, managing the full SDLC and integrating Active Directory for secure enterprise authentication.
- Engineered a "Headless" API system (HRLite Plus) using Clean Architecture and SOLID principles, increasing decoupling and efficiency between core databases and external libraries.
- Optimized MS SQL Server solutions, including stored procedures and complex queries, to support high-concurrency real-time business workflows across multiple regions.
- Developed production-critical software using C# (.NET Core) and React with TypeScript, ensuring high availability and scalability for retail operations.
- Led the support of live environments, investigating and resolving stability issues across international regions to maintain 99.9% system uptime.

I-magine Works - Dekweneh, Lebanon

August 2022 - July 2024

Full-Stack Developer

- Independently built an internal Intranet Admin Dashboard using React, TypeScript, and Redux Toolkit, which streamlined leave requests and employee profile management.
- Developed RESTful APIs using .NET Framework, applying Domain-Driven Design (DDD) and Clean Code practices to ensure long-term system maintainability.
- Overhauled user authentication protocols using JWT, enhancing security and implementing granular role-based access control (RBAC).
- Optimized MongoDB data models, reducing query response times and improving overall backend performance for heavy data processing tasks.

Bimcubes - Antillias, Lebanon

March 2022 - August 2023

Full-Stack Developer

- Developed specialized C# .NET add-ins for the Revit application, utilizing Object-Oriented Programming (OOP) to optimize architectural workflows.
- Built the Bimcubes Platform using ASP.NET Core MVC 6, integrating Autodesk Forge Viewer for high-performance 3D model visualization.
- Implemented seamless UI interactions using jQuery, AJAX, and Bootstrap, significantly improving the user experience for civil engineers.

EDUCATION

Lebanese International University
Bachelor of Science in Computer Science

2018 - 2022

SKILLS

Programming Languages: C# (.NET Core/Framework), TypeScript, JavaScript, SQL, PHP, Python, Dart (Learning)

Web Technologies: React, Next, Redux Toolkit, ASP.NET MVC, Razor Pages, HTML5/CSS3, Bootstrap, JWT

Architecture & Patterns: Clean Architecture, SOLID, DDD, Microservices, RESTful APIs, OOP

Databases & Tools: MS SQL Server, MongoDB, MySQL, Git (Bitbucket), Jira, Notion, Docker, Unity

OTHER

Certifications: Cisco CCNA (Routing & Switching); AUB Digital Skills (Backend, Frontend, Python). Currently pursuing Meta React Specialization, ASP.NET Clean Architecture, and Flutter & Dart.

Project Leadership: Leading the development of a Multi-Platform Restaurant Ecosystem; orchestrating 3 Flutter applications (Client, Admin, Delivery) integrated with a Laravel backend, React landing page, and a TypeScript Backoffice Admin Panel.

Enterprise Solutions: Developed 'EBP', a high-concurrency portal serving 14,000+ users with .NET Core and Active Directory integration. Engineered 'HRLite Plus', a Headless API system using Clean Architecture and SOLID principles.

Technical Portfolio: Detailed architectural breakdowns, UI/UX case studies, and documentation for these and additional full-stack projects are hosted at [Portfolio](#).

Languages: Arabic (Native), English (Good).
